

FLOVOL®

THE NEXT LEVEL IN VALVE AUTOMATION

MIEPL VALVE AUTOMATION IS NOW FLOVOL

SERVICE FOR VALVES & ACTUATION

Total Care For Pressure / Temperature / Flow / Level measurement and control Instruments

Introduction

Millennium Instruments Limited (MIEPL) undertakes installation, commissioning repairing, maintenance, and reconditioning services for all type of Valves and related Automation systems. We have full fledged capabilities for conducting overhauling, refurbishment, retrofitting, Valve seat repair and replacement for all major brands of Valves. We offer in situ service for critical valves and have a large inventory of spares to offer quick turn around for Valves under service.

Commitment

- 24/7 service support
- OEM spare valves, actuators, and parts
- Quick around time
- Dedicated stocking program
- In house machine facilities
- In house valve testing facilities

Service Scope

FLOVOL has an established network of strategically located field service that offer a full range of installation, repair, inspection, testing, spare parts, and maintenance services.

- Services for comprehensive range of Industrial valves Ball Valve, Butterfly Valves, Globe Valves Gate Valves & Pneumatic Cylinder.
- Retrofitting, Erection & Commissioning, repairing, preventive maintenance, modifications, analysis & testing of all types of control valves & On/Off Valves.
- Installation, Commissioning & Calibration of Filed Instruments Control Valves, On/off Valves, Pressure Transmitter, Differential Pressure transmitter, Level Transmitter & Flow Meter.
- New equipment implementation, as well as modernizing and upgrading existing parts.

Equipment Testing & Diagnostics

- Hydrostatic testing
- Leak detection
- Torque testing
- Control valve diagnostics & testing

Type of Industries

- Power Generation
- Cement
- Oil, Gas & Refining
- Chemical & Fertilizers
- Food & Beverage
- Water & Wastewater
- Metal & Mining
- Pulp & Paper
